Optimized driving
Chances are you're trying to use your time more effectively while in your car. No matter what you're doing – running errands, fighting traffic, or simply taking care of business, thanks to the new, affordable wireless headset from Jabra, there's an easier and safer way to talk while driving.

One for the road
The new Jabra BT2040 is ideal for anyone who needs to talk hands-free when they're on the road. Thanks to Bluetooth technology, there are no wires to get tangled up. With Jabra's ergonomic discreet design, you'll never again have to strain your neck to hold your phone. What's more, it's probably the most convenient headset on the market – Jabra BT2040 never needs charging. It lets you talk for up to 8 hours and will stay on standby for 6 months on just one battery.

It doesn't get any easier
The new Jabra BT2040 is also the most affordable headset in the Bluetooth category. And if you've never had a headset before, you'll find it's also one of the easiest to operate! Best of all, Jabra provides superb quality, comfort, and functionality – all in a single attractive design.
